

Making A Referral – Who & How?

Infant & Toddler
Connection of Virginia

The **Infant & Toddler Connection of Virginia** assists families of infants and toddlers birth to three with developmental delays and/or disabilities help their children learn and develop through everyday activities and routines so that they can participate fully in family and community activities. In order to take advantage of the services and supports available, families need to know about the system and how to access these resources! Please help to inform families of their options by becoming familiar with this guide.

Who is eligible for the Infant & Toddler Connection of Virginia?

- Infants and toddlers with 25% or greater delay in one or more developmental area(s): cognitive, adaptive, receptive or expressive language, social/emotional, fine motor, gross motor, vision, hearing development
- Infants and toddlers with atypical development – as demonstrated by atypical/questionable sensory-motor responses, social-emotional development, or behaviors, or an impairment in social interaction and communication skills along with restricted and repetitive behaviors
- Infants and toddlers with a diagnosed physical or mental condition that has a high probability of resulting in developmental delay – e.g., cerebral palsy, hearing or vision impairment, Down syndrome or other chromosomal abnormalities, central nervous system disorders, effects of toxic exposure, failure to thrive, etc.

What prompts a referral?

- You or the parent of an infant or toddler has concerns or suspicions about the child's development. Screening using a standardized developmental screening test (as recommended by the American Academy of Pediatrics) will help identify children who may be in need of early intervention services.

A diagnosed physical or mental condition is not required.

How are referrals made?

- Contact the Infant & Toddler Connection “central point of entry” for the city or county in which the family resides or call the state toll free number: 1-800-234-1448, or click on “Central Directory” at www.infantva.org. You may make the referral for the family, or provide contact information to the family.

Referrals should be made as soon as the concern is identified.

What information should be provided to the early intervention system when referring a child?

- Child's name, gender, and date of birth
- Name, address, and telephone number of the parent or legal guardian
- Reason for referral (child has suspected or confirmed developmental delay or disability)
- Health and physical information, including vision and hearing, results of any neurological or developmental evaluations and any other information pertinent to the child's physical and developmental status and needs
- Your name and telephone number

What should I discuss with the family?

- All children referred receive an eligibility determination, with parent consent. Eligibility determination plus any needed developmental screenings and assessments are provided at no cost to the family.
- The family is not obligated to accept services
- If the child is found eligible for participation in the system, the family will guide the development of an Individualized Family Service Plan (IFSP) that identifies the services and supports needed to promote the child's development and support the family in their daily activities and routines with their child
- No child or family is denied services and supports identified on the IFSP because of their inability to pay

What else can I do to support the family?

- Volunteer to provide input into the development of each family's IFSP and to monitor its implementation
- Develop and maintain relationships with those providing early intervention services to the child and family

The Arc of Virginia is a resource for family support. Please call: 1-888-604-2677

Making A Referral – Where?

Infant & Toddler
Connection of Virginia

Referrals to the **Infant & Toddler Connection of Virginia** are made by contacting the early intervention **central point of entry** for the child's and family's locality.
